

FAA Coordination for Northrop Grumman Systems Corporation Request for STA

Northrop Grumman Systems Corporation (NGSC) has coordinated with the Federal Aviation Administration the operation requested in STA application 0963-EX-ST-2013. The assigned FAA coordination record number is NG T130421. NGSC agrees to the following two conditions:

1. The TPS-78 radar blanks between 45 and 250 degrees reference to true north.
2. The proposed system is designated for foreign sales only. Additional evaluation and modification to the system may be required if the system is used in US.

Kevin

Thanks for agreeing all conditions.

Mr. Andres Rosa will issue an NGT number. Once you have the number, you can file for an FCC license in which you should specify the below conditions.

Sincerely
Thomas Ahn

Kevin

The FAA can concur the test at Elkridge MD if the following conditions are agreed.

1. The TPS-78 radar blanks between 45 and 250 deg reference to true north.
2. The proposed system is designated for foreign sales only. Additional evaluation and modification to the system may be required if the system is used in US.

Sincerely
Thomas Ahn
