Subject: RE: FCC File # 0225-EX-ST-2005 [Reference Number: 3617]

Mr. Kennedy,

The frequencies listed in the STA will only be used for demonstration purposes at Cochise College Airfield in Douglas, AZ. The proposed production version of this air vehicle will operate solely on government frequencies as previously coordinated with the US Army. These frequencies will not be in the range of the United States UHF television frequencies.
