nope, we only use the UHF for uplink.

thanks,
cat

Hi,

I once again need to change the dates on that if possible. It turns out our equipment will be arriving Nov 7th, and while we won't be flying until Jan, we may want to be doing some ground tests before that. Can I get the STA to start Nov 1 rather than Dec 1?

thanks so much for your help with this.

sorry for the change (again).

cat

Mr Huie,

if we can we would like to have both channels 18 (494-500) and 19 (500-506). Karl

Voss of the SBE verified that those were free in the Douglas area. If we cant have both then we will try and work with just one of them. The only thing is, the date range listed on the application probably wont be accurate. We would like to have the STA begin in Dec 04 and last the maximum amount of time that you usually give STAs. The activity will probably not begin until Jan.

thanks,
catrina benson
