Subject: Request for Info - File #0727-EX-PL-2013

Message:

I suggest that you read 47CFR15 Subpart D <http://bit.ly/1eEWErS>. Although you are not operating unlicensed PCS devices, you will need to get down to the power levels used by that service so that you don't interfere with them. This band is meant for very low power devices, way below the 96 W in your application. Your application says that you need to "transmit throughout the office." You should be able to do that at powers well below 96 W.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 07, 2014 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
