Re: O3b Limited
OET File No. 0104-EX-CR-2017
Call Sign: WH2XRC

This document notifies the Office of Engineering and Technology (“OET”) that O3b Limited (“O3b”) will begin operating a fixed earth station terminal in Aguadilla, Puerto Rico on November 6, 2018. The terminal will operate in receive-only mode pursuant to O3b’s grant issued by OET under the above referenced file number and call sign.

O3b will operate a 2.2-meter terminal at the following location:

18° 29' 36" N 66° 6' 6" W

The OET grant authorizes O3b to operate up to 5 2.2-meter terminals in the CONUS, Hawaii, Puerto Rico, and the U.S. Virgin Islands and to receive transmissions from the O3b satellite system in the 17.8-18.6 GHz bands.

For purposes of this operation, O3b will transmit signals via the 2.2-meter terminal to the O3b satellite system in the 27.6-28.35 bands. Consistent with its application, O3b will notify U.S.-authorized co-channel Ka-band satellite operators seven days prior to transmitting in this band. O3b will also submit a finalized coordination report to the Commission prior to transmitting in the 27.6-28.35 GHz band.

Please direct any questions to the undersigned.

Sincerely,

Suzanne Malloy
Vice-President, Regulatory Affairs
O3b Limited
