Subject: Request for Info - File # 0952-EX-CN-2020

---

Message:

We are in receipt of email correspondence dated 2/18/2021. As explained in the US-33 Smart Mobility Project Partners (Multiple FCC Experimental License Requests) Exhibit there are three FCC Form 442 applications that are tied to the US-33 Smart Mobility Corridor Project that is partially funded thru USDOT Grant funds. The three applications are listed below:

Ohio Department of Transportation: FCC Form 442 File Number - 0952-EX-CN-2020 (the file number that generated this correspondence)

City of Marysville: FCC Form 442 File Number - 0150-EX-CN-2021

City of Dublin: FCC Form 442 File Number - 0153-EX-CN-2021

We ask that all three of these experimental license requests be processed/reviewed together as all three are part of the overall US-33 Smart Mobility Corridor Project.

We would be happy to meet with any representative from FCC to further explain these three applications. Thanks so much for your ongoing attention to these requests. If any further questions please contact us.
