(Call Sign)

XD FX & MO
(Class of station)

S-1427-EX-93
(File number)

NAME OMNIPOINT CORPORATION

Vicinity of Colorado Spring, CO
(Location of station)

Special Temporary Authority is hereby granted to operate the radio transmitting apparatus described below:

Frequency MHz	Authorized Power (watts)	Emission Designator
1850-2200	1000 (ERP)	1

1. Licensee is authorized to use various modes of modulation, bandwidth, and data rates. None of these modes of transmission shall extend beyond the band band limits set forth above.

This special temporary authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This special temporary authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control by the Government of the United States conferred by Section 706 of the Communications Act of 1934.

This authorization effective February 23, 1994 and
will expire 3:00 A.M. EST. July 31, 1994

Re: Request for Special Temporary Authorization
(Colorado Springs, CO)

Dear Sir or Madam:

I am writing on behalf of Omnipoint Corporation ("Omnipoint") to request a Special Temporary Authorization to operate spread spectrum wireless communications equipment in the 1850-2200 MHz range in and around Colorado Springs, Colorado between February 20 and July 31, 1994 at power levels up to 1000 EIRP.

On October 22, 1993, the Commission concluded that its PCS licensees should be permitted to operate at power levels up to 1000 watts EIRP. Amendment to the Commission's Rules to Establish New Personal Communications Services, FCC 93-45, at 29 (adopting new Section 99.231) (released Oct. 22, 1993). Omnipoint requires this STA to test its 1850-2200 MHz PCS equipment under the conditions prevailing in and around Colorado Springs at the higher power levels contemplated by the Commission.
