Subject: Additional Information Request

---

Message:

We are gathering the required documentation and have entered into discussion with DISH in order to get a written consent regarding the use of the frequencies.

However we anticipate it might be difficult to get everything by 23 JUL (i.e. date of last correspondence of 23 JUN + 30 days).

Would that be possible to extend the deadline until we get responses to each and every point you raised?

Best,

Omar
