Washington, D.C. 20554**

In the Matter of:	)	
	)	
ORBCOMM License Corp.	)	File No. 0072-EX-RR-2003
Renewal of Experimental License	)	
Call Sign WB2XGL	)	
	)	

To: Office of Engineering Technology,
Experimental Radio Division

SUPPLEMENT

Applicant ORBCOMM License Corp. hereby supplements its above-captioned April 28, 2003 application to remove the request for authorization to operate its experimental transmitting device (the “Experimental Device”) in the 148 – 150.05 MHz band.

Applicant requests removal of the authorization to transmit in the 148 – 150.05 MHz band because Applicant has determined that the subject operations are fully within the pre-existing commercial service authorized parameters, and thus covered by its existing commercial blanket mobile earth station license (FCC Call Sign E940534). A copy of the subject commercial blanket license authorization may be found on the Commission’s website at:

http://dettifoss.fcc.gov/servlet/ib.page.FetchLicense?filing_key=-2099670139

Applicant also respectfully hereby requests expedited processing of the above-captioned renewal.

Respectfully submitted,

ORBCOMM LICENSE CORP.
