Dear FCC Staff Member,

Enclosed is a completed Application Form 442, Remittance Advice Form, and \$45.00 fee for an experimental (non-broadcast) radio service under FCC Part 5. The location of building in which the RF source will be installed is shown on an enclosed 7.5 minute map of the Richland, WA area. As explained in the attached narrative, the RF source will be designed and installed so as not to radiate outside the building.

Thank you for your attention in this matter. Questions of a technical nature should be directed to Dr. Bary Wilson at (509) 375 2817.

Sincerely,

Bary Wilson
Project Manager
