

Modification of Call Sign WG2XEE

Panasonic Avionics Company ("Panasonic") respectfully requests the addition of two additional frequency bands to Call Sign WG2XEE at each of the five (5) authorized test sites: 5250-5350 MHz and 5470-5725 MHz. Although not required for the modification application, Panasonic will test within these two frequency bands in the following 1 MHz frequencies: in the 5250-5350 MHz band at 5300 MHz; in the 5470-5725 MHz at 5580 MHz.
