RE: Potential SBE Coordination for Panasonic Experimental Testing
at Dallas Love Field Airport

New contact info found in this email: Johnny Stigler jstigler@s... [add...](#)

I don't see an issue with the Part74 or 101 users In Dallas with your 1 MHz test frequencies at 2412 MHz, 2437 MHz and 2462 MHz.

2475 or 2491 would be the digital frequencies used by our ENG service in DFW. These are lightly used these days.
