

Modification of Call Sign WG2XGI

Panasonic Avionics Company (“Panasonic”) respectfully requests the addition of three additional frequency bands to Call Sign WG2XEE at each of the two (2) authorized test sites: 2500-2685 MHz, 5250-5350 MHz and 5470-5725 MHz. Although not required for the modification application, Panasonic will test in the following 1 MHz frequencies in these three bands:

- 2500-2685 MHz: 2595 MHz
- 5250-5350 MHz: 5300 MHz
- 5470-5725 MHz: 5580 MHz
