Message:

If your operations are for demo purposes please review Section 2.805(d) of the FCC rules to see if you can operate under that rule without an experimental license. If so, please let me know and we can withdraw your application. If you still need an experimental license, then you will need to notch the 700 MHz public safety bands and limit your testing to specific designated locations. Otherwise, your request will be too broad and get dismissed.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 25, 2014 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
