Special Conditions:

- (1) Operation in the 1710-1755 or 2110-2155 MHz band requires consent of local Advanced Wireless Service (AWS) licensee(s) to avoid interference.
- (2) Operation is subject to prior coordination with the Society of Broadcast Engineers, Inc. (SBE); ATTN: Executive Director; 9102 North Meridian Street, Suite 305; Indianapolis, IN 46260; telephone, (866) 632-4222; FAX, (317) 846-9120; e-mail, executivedir @ sbe.org; information, www.sbe.org.
- (3) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (4) At any one time, Parallel's "intelligent base stations" will be located at no more than five sites in, and within a four-kilometer radius of, Parallel's offices in Nashua, New Hampshire. Over time, Parallel expects to test 50 base stations. Any given experiment would use no more than five such base stations. In addition:1, Parallel expects to test up to 15 portable devices in any given experiment.
- (5) Parallel has analyzed information in the FCC's license databases and states that the proposed operation would not interfere or create a significant potential for harmful interference with any public safety operations in the 700 MHz band.

Special Conditions:

- (6) Operation of the experiment will not be used in mission-critical operations or in the delivery of live transmissions in duties to protect life, property, or safety. Operations will be confined to a one kilometer radius of each base station in use, for a maximum overall four- kilometer radius at any given time.
- (7) Parallel has provided an overall project manager and in case of interference issues, "stopbuzzer" contact for these experiments: Anne-Marie Dinius, Intellectual Property Counsel, Parallel Wireless Inc., 603-589-9937 x 224; adinius@parallelwireless.com.
- (8) This license is revised to remove the Band 14 frequencies 758-768/788-798 MHz band. Firsnet anticipates the NPSBN to be operational during the timeframe of this license with Band 14 covering both test locations as well as across the border into Massachusetts.
