Re: Station KM2XEN
File No. 3072-EX-R-94

Dear Mr. Wright:

Pursuant to Condition 3 of Station KM2XEN's experimental license, which was granted on August 10, 1992, and renewed on July 1, 1994, this constitutes the ninth of our quarterly reports regarding the progress of the authorized experimental PCS operations.

Paramount Wireless Limited Partnership (PWLP) has continued conducting PCS analytical studies and experiments pertinent to the commercial implementation of PCS on a large scale basis.

Our continued studies and experiments include the following:

1. Continued research pertinent to 2 GHz PCS implementation
2. Preparation of patent applications
3. Financial modeling based on Local Exchange Carrier (LEC) "unbundled" blind assumptions
4. Formation of entrepreneurial company to hopefully participate in "Designated Entity" PCS auctions
5. High level discussions with Regional Bell Operating Company (RBOC) in relation to future testing, etc.
6. Continued dialogue with equipment vendors under non-disclosure agreements.

Any technical questions should be addressed to:
