Subject: Info Request

Message:

Full use of the 5895 to 5925 MHz band would require a letter of consent from the following licensee: the State of California (WQBH796 - California Department of Transportation Office of Radio Communications) indicating that this test will not interfere with public safety operations in the area being used.

Absent such consent above the STA will be limited to 5850 to 5895 MHz to avoid any overlap with public safety licensees in the State of California. Please provide the letter of consent or affirmatively indicate willingness to accept the limited grant.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 28, 2026 may result in application dismissal pursuant to 47 CFR § 5.67 and forfeiture of the filing fee pursuant to 47 CFR § 1.1111.
