Subject: Additional Information Request

Message:

Your narrative states, "The purpose of this modification application is to permit continued research and development and testing of products in urbanized areas. The ongoing R&D activities necessitate a longer period of testing and deployment in the New York City area."

However, the latitude and longitude are somewhere in Upstate New York. A Federal agency has tabled one of your frequency requests and would require an exhibit in writing stating whether you will conduct any operation in New York City.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 09, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
