Subject: Request for Info - File # 1067-EX-CN-2019

Message:

Dear Hung Le,

Thank you for your correspondence received just now. The original email from fcc.gov was inadvertently put into the spam folder. I hope you are able to accept my comments at this time.

I would appreciate clarification of what is required. The application is for constant carrier waves and swept carrier waves over a 75 KHz range.

I will correct the application to replace the frequency range 5300-5375 KHz with the center frequency 5337.5 KHz and to replace the frequency range 7050-7125 KHz with the center frequency 7087.5 KHz. Please advise if this is the required correction.

Kind regards,
Peter Driessen
