NAME Phoenix Air Unmanned, LLC

This Special Temporary Authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This Special Temporary Authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control the Government of the United States conferred by Section 706 of the Communications Act of 1934.

Special Temporary Authority is hereby granted to operate the apparatus described below:

Purpose Of Operation:

Xcel Energy teamed with L3Harris and PAU will operate under FAA 14 CFR Part 107 waiver #107W-2019-00055B to fly a small UAS at low altitude (below 250 ft) in remote/non-urban areas.

Special Conditions:

- (1) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (2) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (3) Experimental station shall use the minimum power level necessary to establish communications links to minimize potential interference to licensed users.
- (4) Phoenix Air Unmanned, LLC provide a map of operating locations for deconfliction and notification prior to operations to Mr. Rodney Murphy, rodney.murphy@faa.gov.
- (5) All Phoenix Air Unmanned, LLC operations in New Mexico must be coordinated at least 96 hours prior to activation with the DoD Area Frequency Coordinator, via email to usarmy.wsmr.imcom-central.list.dodafc@mail.mil. This coordination should also contain the weekly schedule of planned operations in New Mexico, and a final electronic copy of the FCC license.
