Subject: Additional Information Request

---

Message:

I have added the city and state to the filing and updated the request date to 07/08/20, and I updated the coordinates to match the FAA coordination. Additionally, I deleted the 132.25 and 123.635 MHz frequencies from this STA. They are not centered at the airport and I was told by the FAA Spectrum management to make 2 separate STAs for those frequencies.

Thank you.
