Subject: Request for Info - File # 0352-EX-CN-2020

Message:

The application has been tabled at NTIA due to the United States (US) footnote US261.

US261: The use of the band 4200-4400 MHz by the aeronautical radionavigation service is reserved exclusively for airborne radio altimeters. Experimental stations will not be authorized to develop equipment for operational use in this band other than equipment related to altimeter stations. However, passive sensing in the Earth-exploration satellite and space research services may be authorized in this band on a secondary basis (no protection is provided from the radio altimeters).

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 03, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
