Subject: FCC File # 0066-EX-PL-2006

Message:

Dear Mr. Wayne Pleasant:

You mentioned that one of the objectives of this experiment was to determine the "propagation effects and effect on data rate with environmental conditions". Is this the reason why 15 locations are being requested? If so, are 15 different environmental conditions being tested and what are they by location? Can the environmental conditions be tested using fewer locations? If so, please report those locations that can be deleted.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 05, 2006 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
