Your Reference: STA Application 0039-EX-ST-2008
Our Reference: MKC81051
Subject: Request for Priority Review
Date: 19 Feb 2008

Dear Mr. Burtle,

Pursuant to past discussions with your Mr. Kennedy and Ms. Hay, Plextek Ltd., represented by Mr George Simek of our US Office, wishes to respectfully request a priority rating for review of the above STA application, in as much as our product is an identified asset on the Department of Homeland Security (DHS) SBI net Program (Electronic Fence.) Since the last STA application, Plextek has bid a number of solicitations. Boeing Corporation is the Lead Systems Integrator under DHS and has continued to express interest in our system (especially the new Northern Border initiative). In order for Plextek to meet timely requirements, and provide this new technology to DHS, we must coordinate with the various contractors and State and Local Governments, and provide demonstrations and trials, which are outside of the scope of the direct USG contract. In order to provide this state of the art technology to the US Government and meet the current task and future task orders, we have requested the referenced commercial, non-Agency affiliated STA.

We at Plextek fully support the aggressive tasks mandated by the Dept of Homeland Defense on the SBI net project. Without prompt approval of the STA File Number 0039-EX-ST-2008, Plextek will not be able to provide this technology which supports the Dept. of Homeland Security initiatives.

Our demonstrations to the US Government customers and related government contractors commence during the month of March 2008. If you have any questions, please feel to call George Simek at the US Office 321 947 3448.

Yours sincerely

Robin Ireland
