Hi John,

It was great to talk to you today. Thanks again for the help.

I was able to update my form online to add antenna locations. I decided on three locations that are the most commonly used locations. I was not able to figure out how to change the "Station Location" field of the form where I had originally identified both coastlines of CONUS. Are you able to delete that info from the form. If not can you help me navigate to the correct web link to gain access to that field.

Thanks,
Richard Pokrass
