**Subject:** File Number 0061-EX-PL-2001 / Experimental License Application

Mr. Huie:

On March 21 I discussed with you amendments to file number 0061-EX-PL-2001 that could potentially increase the likelihood of the license being granted. This message is to notify you that based on our discussion I have now amended the application to decrease the transmitter power and ERP and to modify the frequency ranges requested. The application is now, we believe, ready for processing. If any additional information is required please contact me or Dwight Lutz at Prodelin as listed on the application.

Regards,  
Will Perkins
