Experimental Licensing Branch, MS 1300E1
445 12th Street SW
Washington DC 20554

SUBJECT: Release of Experimental License

Dear Mr. Kennedy:

Progress Energy Carolinas, Inc. ("Progress") operated its original Broadband over Power Lines (BPL) test project under an experimental license (Call Sign WD2XCA and file number 0011-EX-PL-2003) issued by the FCC on February 10, 2003.

The equipment that Progress is using is now compliant with Part 15 regulations so Progress respectfully releases its experimental license and call sign.

Thank you very much for your assistance in this regard.

Sincerely,

A handwritten signature in black ink that reads "Len S. Anthony/mhm".

Len S. Anthony
Deputy General Counsel - Regulatory Affairs
