DISMISSED-WITHOUT PREJUDICE

Dear Larry J. Belella,

This refers to application, File No. 0357-EX-ST-2008, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. Federal Government agencies object to this request. The band 1755-1850 MHz is an exclusive Federal Government band, and there are numerous operations in the proposed areas which could be disrupted. It is suggested that the band 1710-1755 MHz be considered for similar future applications as it was mentioned in this application that any frequency in the 1710-1850 MHz range could be used.

Responses to this correspondence must contain the Reference number : 7397

Sincerely,

A handwritten signature in black ink, appearing to read "James R. Burtie", is written over a printed name.

James R. Burtie
