Hi Tim

I need a couple more items from my initial review of what was submitted.

1. Please submit an ITU spacecap filing. You will need to email the file directly to me since ELS can only handle pdf's. You will need to change the .mdb extension to .txt so it is not blocked by our email filter. We then change it back.
2. I will also need the ITU API letter for the spacecap. I believe you did provide the cost recovery already. Samples are attached.
3. Do you have NOAA approval for the imaging operations? Please submit a copy of their approval.

Regards
Tony S.
