

MediaFLO™ USA

A QUALCOMM COMPANY

June 13, 2007

Mr. Ed Trimble
General Manager
KFMB
7677 Engineer Road
San Diego, California 92111

Dear Ed,

As per recent email correspondence with Rick Bosscher, QUALCOMM is seeking KFMB concurrence to operate a very low power transmitter on channel 55 until its main transmitters can be switched on.

The 5W transmitter will be located at MediaFLO's USA main office at:

4875 Eastgate Mall
San Diego
CA 92121-1978
32° 52' 47.17" N, 117° 12' 09.02" W

Attention: Tom Mikkelsen
Sr Dir, Broadcast Operations. 858-845-2119

Our network design shows that our signal level will be at least 20dB below the KFMB signal at the time it reaches the edge of our car park on East Gate Mall and thus it poses no threat to KFMB viewers.

We expect to be operational by 31 July, and will send you a courtesy email to inform you of the exact date that the transmitter is switched on.

Please indicate your concurrence with the above arrangements by signing and returning a copy of this letter via facsimile to 858-845-8333.

Warm Regards,

Susan Schedel,

Signature Concurrence of Ed Trimble, General Manager,
on behalf of KFMB

Mailing Address: 5775 Morehouse Drive, San Diego CA 92121-1714
