Reference Call Sign KK2XBJ, File No. 2345-EX-PL-91

Dear Mr. Wright:

QUALCOMM, Incorporated, ("QUALCOMM") pursuant to section 5.55 of the Commission's Rules, 47 C.F.R. § 5.55, hereby requests renewal and modification of the above referenced authorization to operate experimental facilities in San Diego, California. QUALCOMM requests modification of its authorization to allow it to use 100 watts of transmitter power rather than the now authorized 5 watts. This modification will allow QUALCOMM to test its experimental PCS equipment at power levels consistent with the Commission's recently adopted PCS power limit rule, 47 C.F.R. § 99.231.

All other particulars are the same as in our original applications except that QUALCOMM's mailing address has changed as indicated on the attached Form 442.

If you have any questions regarding this request please contact either myself at (202) 223-1720 or Robert Sanchez at (619) 658-3848.

Sincerely yours,

A handwritten signature in cursive script that reads "Kevin J. Kelley".
