Reference Call Sign KK2XBJ, File No. 4289-EX-MR-94

Dear Mr. Morgan:

QUALCOMM, Incorporated, ("QUALCOMM") pursuant to section 5.55 of the Commission's Rules, 47 C.F.R. § 5.55, hereby requests a modification of the above referenced authorization to operate experimental facilities in San Diego, California. QUALCOMM requests modification of its authorization to allow it conduct experimental operations at it Boulder, Colorado facility in addition to the tests it is now conducting in San Diego. This modification will allow QUALCOMM to conduct certain additional RF testing of its experimental PCS equipment that cannot be done at QUALCOMM's San Diego facility.

All other particulars are the same as in our earlier applications. I have attached a copy of our existing authorization for your information.

If you have any questions regarding this request please contact either myself at (202) 223-1720 or Robert Sanchez at (619) 658-3848.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Kevin J. Kelley". The signature is fluid and cursive, with the first name "Kevin" and last name "Kelley" clearly distinguishable.

Kevin J. Kelley
Vice President, External Affairs
