Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (2) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (3) Operation is subject to consent of WCS licensees (2305-2320 MHz and 2345-2360 MHz) within 25 miles of the location of the test.
- (4) This frequency assignment in one of the bands 1435-1535 or 2310-2390 MHz was coordinated prior to authorization as appropriate, with the Aerospace and Flight Test Radio Coordinating Council. Use of this frequency under the authority of this assignment is subject to such further coordination with the AFC as necessary to ensure compatibility with existing uses.
- (5) All the experimental equipment and devices must be retrieved by Qualcomm Technologies, Inc. from the participants upon completion of the testing.
