Subject: RE: Experimental FCC application coordination

Ryan,

AFTRCC coordinates the bands 1435 to 1525 MHz and 2360 to 2395 MHz. I don't see anything on your application that indicates intended use of those bands. AFTRCC coordination should not be required.

Subject: Experimental FCC application coordination

Mr. Holtmeyer:

We represent Flarion Technologies and have an application pending before FCC for new experimental authority. Doug Young at OET-FCC notified us that we needed to pass the application before AFTRCC for approval before he can finalize processing of Flarion's application.

How would we best provide you the information required for your review? I have attached a PDF copy of the application, but if something additional is required, please let me know and I will be happy to provide you that as well.

Many thanks.

Ryan N. Terry
