

**Type of Operation:**

This testing is to further integration of the RADA suite of systems (RPS-42/82/202) with the implementations from Operation Jailbreak. The RADARs will be feeding live data into a system to show accurate track hand-off between multiple platforms.

**Operating Location:**

The RADAR will be operated on Redstone Arsenal, in a controlled access facility.

**Requested STA dates:**

10 Aug 26 - 20 Nov 26
