Dear Nancy:

Attached are two signed copies of FCC form 442 page 5 that you requested Claude Wells of Lockheed Martin Corporation to fill out. Claude forwarded them to me so that I could get the proper signatures from our corporation. Below is also a brief historical picture of our business relationship and paper trail for the experimental licenses.

Last April of this year, a new corporation was formed from ten former Lockheed Martin divisions. Our corporation name is L3 Communications and our division's name is Randtron Antenna Systems. Prior to being owned by Lockheed Martin, Loral was our parent corporation and prior to that we were simply Randtron Systems, Incorporated in the state of Delaware. When Lockheed Martin took over (April 1996) Claude initiated the transfer of all our FCC licenses to Lockheed Martin from Randtron Systems. The experimental licenses in question had always been associated with Randtron Systems until Lockheed Martin took over.

Also, please note that the call sign for one of the experimental licenses is KM2XLV not KM2XLU as Claude seems to think you requested the 442 for. KM2XLU was incorporated into KB2XEQ.
