

DEPARTMENT OF THE NAVY

NAVAL POSTGRADUATE SCHOOL
MONTEREY, CA 93943-5000

IN REPLY REFER TO:

5 October 2011

To Whom It May Concern:

Mr. David Burgess, Range Networks Inc. has been invited to participate in the Naval Postgraduate School's Research and Experimentation for Local and International Emergency & First-Responders (RELIEF) event held 2-4 November at McMillan airfield, Camp Roberts, CA.

Through our processes we have determined that Mr. Burgess' request to utilize GSM frequencies will not conflict with any other activity on Camp Roberts during his assigned period of operations and support his application for temporary authority from the FCC to enable Range Networks participation in this event.

Thank you for your consideration in these matters.

Best,
