Message:

I am the point of contact and can be reached by telephone at 707-208-2622 during this test. That is my personal cellphone, for a carrier with coverage at the test site, and it will be with me at all times.

The operation in question is Research and Experimentation for Local and International First-Responders, RELIEF 2011, sponsored by the Naval Postgraduate School. I have a letter of support from Dr. Raymond Buettner, Jr., Director, Field Experimentation, Naval Postgraduate School. I have tried to attach this letter to my application, but the web interface will not let me attached it without sending me again into the payment process.
