Subject: Rationale for Frequency Request 81-EX-ML-2000

Carl

Here are the words you asked for the FCC application 81-EX-ML-2000.

We agree to truncate that request to 31.3 GHz. We will be generating a new request for 31.3 to 31.8 with similar words.

"THE REQUESTED SPECTRUM IS REQUIRED TO TEST AND EVALUATE THE TACTICAL PERFORMANCE OF FREQUENCY AGILE DEVELOPMENT SOFTWARE AND HARDWARE"

Thank you for your help.
