

Jose,

The following equipment has been added to existing FCC license WD2XZE

1. MI Technologies MI-3101
2. Scientific Atlantic SA-2150

We also added the following location for EL Segundo, CA Raytheon building R23 at 33 55 34N 118 23 28W. This location has two Anechoic Chambers which we will test frequency 1030 and 1090. We will also use these chambers to perform testing in the X-Band and L-Band.

Craig D Mauldin
