Re: FRN Updates for Various Raytheon Experimental Licenses
Call Signs: See Table Below

Dear Ms. Hey:

In accordance with sections 1.65 of the Commission's rules and in accordance with the practice and procedure specified by the Office of Engineering and Technology on its website, <https://fallfoss.fcc.gov/oetcf/els/misc/FccElsFAQ.cfm>, we are writing to the Office of Engineering and Technology to request that the Commission's records be updated to properly reflect the name and address of the entity that holds the referenced licenses. The call signs in table below should show "Raytheon IDS" as the entity that holds the license.

The policy of the Raytheon Spectrum Management Council requires that each of its business units to be responsible for the licenses that are used at their facilities. The underlying programs have moved from Raytheon NCS to Raytheon IDS. This change is not the result of a corporate transaction, but merely the reassignment of responsibilities within an existing corporate structure. No actual or pro forma transfers of control have taken place.

Call Sign	Licensee Name	Current FRN	Post-Update FRN	Reason for Change
WF2XCL	Raytheon IDS	0015362981	0003628344	Raytheon is consolidating its FRNs, and these licenses all belong to the IDS division

All of these licenses are under the control of the Raytheon IDS business unit, where the spectrum management office is headed by:

Karen Dyberg, Spectrum Manager
