Raytheon Request for FCC Special Temporary Authorization (STA)

STA File Number: 1073-EX-ST-2013

November 25 2013

Purpose of Operation:

Frequency authorization is being requested for the period of January 16, 2014 – January 16, 2019 to validate radiated insertion loss test procedures for hardware requirements. Testing will be performed inside the Raytheon Facility at Andover, MA.

STA Explanation:

The purpose of this request for Special Temporary Authorization is to demonstrate that the insertion loss testing can be performed adequately outside of an anechoic chamber in order to increase production efficiency and meet customer commitments.
