Subject: Reply To FCC Pre-coordination Request for file # 0146-EX-CR-2018

To whom it may concern,

In the process of conducting AFTRCC coordination for frequencies 2316 MHz, 2345 MHz and 2507 MHz, I realized that these frequencies were not under AFTRCC coordinating authority. These frequencies are not listed as coordinating frequencies on the ARTRCC website nor on its coordinating application.

I contacted one of the AFTRCC coordinators, Danny Hankins who told me the frequencies, 2316 MHz, 2345 MHz, and 2507 MHz were reallocated, and some sold to AT&T. I told him I would pass this information on to the FCC and wait for further instructions.

I am enclosing a copy of the AFTRCC coordination application, which list the AFTRCC coordination bands.

Please let me know how you like me to proceed on this issue.

Thank you,

To: Anne Cortez

Date: March 27, 2018
Subject: 0146-EX-CR-2018 pre-coordination data request

Message:

Prior coordination with the AFTRCC is required for the frequencies 2316.00000000 MHz 2345.00000000 MHz-2507.00000000 MHz 2345.00000000 MHz-2507.00000000 MHz requested in this application. Please upload the pre coordination document. Please disregard this notification if you already uploaded the pre coordination document.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 27, 2018 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

EXPERIMENTAL LICENSE or SPECIAL TEMPORARY AUTHORITY

All requests for frequency coordination by AFTRCC are subject to the Coordination Terms and Conditions. A [MEMORANDUM](#) describing the purpose and duration of the license, the make and model of all transmitters and transmitting antennas and their Geographical Coordinates, the desired frequency and all of its associated emissions, **MUST** accompany a completed and signed copy of this form. [A copy of the FCC license application should be included with the memorandum whenever possible.](#)

NOTE: PROPRIETARY DATA/CLASSIFIED INFORMATION SHOULD NOT BE SUBMITTED.

If the applicant received this form in response to a coordination request, it must be completed, signed and returned per the included instructions before AFTRCC can continue processing the request.

Requested Bands:	☐ HF Band (2851.0-21931.0 kHz) ☐ L-Band (1435-1525 MHz)	☐ VHF Band (123.125-123.575 MHz) ☐ S-Band (2360-2395 MHz)	☐ C-Band (5091-5150 MHz)

COORDINATION TERMS AND CONDITIONS

AFTRCC provides recommendations to the Federal Communications Commission (FCC) for non-government use of flight test voice and telemetry frequencies. AFTRCC's role is strictly advisory; in all cases the FCC makes the decision whether to issue a license.

Applicants are advised that no representations or warranties, express or implied, are made as to the interference-free nature of any given frequency or frequencies which AFTRCC coordinates, or as to whether any given frequency recommendation is best suited for the Applicant's purposes.

Applicants should also be aware that frequencies coordinated by AFTRCC are shared with other users; no one user is entitled to exclusive use of a frequency in any given area. Multiple users may be, and often are, licensed or have government assignments for use of the same frequencies. Hence, notwithstanding FCC issuance of a license to the Applicant, transmission on any given frequency may be subject to day-to-day, hour-by-hour scheduling with Government Area Frequency Coordinators (AFCs) or other agencies.

In return for AFTRCC's processing of the Applicant's request, the Applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, representatives, and member companies (and their respective officers, directors, employees, owners, and agents) from and against any and all claims, losses, liabilities, damages or expenses which may arise now or in the future as a result of the Applicant's acceptance of AFTRCC's recommendation, or its use of the recommended frequency(ies).

Information supplied in support of a coordination request represents part of the FCC application process. Accordingly, this information is considered public record material.
