Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (2) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (3) Raytheon Missile Systems should have the supporting government agency submit for an SPS review.
- (4) Raytheon Missile Systems should have no expectations of automatic approval in this band in future submissions, since the proposed frequency band does not adhere to an aeronautical radionavigation band, however, NTIA concurs with proof-of-concept for the purposes of this STA.
