Message:

Hi Joe,

The geographic coordinates for the proposed demonstration are:

Site 1:

34-20-51.12 N

118-24-31.31 W

Site 2:

34-21-09.82 N

118-25-00.56 W

The address originally provided was not correct. The correct address for the test facility is:

Santa Clara Truck Trail, five miles north of San Fernando, California. The road is also known as Forest Route 3N17.

There is no specific street address number, but maps and satellite photos show the facility on the top of a mountain north of San Fernando, CA.

Please let me know if you need further information.

best regards,

Anne
