May 02, 2013

Attn: John F. Adams
Raytheon Network Centric System
2620 Flagstone Court
Shelby, ND 28152

DISMISSED-WITHOUT PREJUDICE

Dear John F. Adams,

This refers to application, File No. 0351-EX-ST-2013, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. The band 1435-1452.5 MHz is for AFTRCC telemetry and not for developing energy weapons. Development of energy weapons need to be developed in a band that is primary DOD or for a station class more appropriate. Operations using a power of 1 GW of power need to be in a band that uses high power and not telemetry were 10 watts is common.

Responses to this correspondence must contain the Reference number : 20054

Sincerely,

Walter Johnston
Chief
Electromagnetic Compatibility Division
