

Raytheon Mission for GSMnet

Raytheon is working to build a NetWarrior Communications System using the GSM technology. The primary use for this experimental license is to test and evaluate this system while in development and conduct demonstration for military/government officials.

We are planning to conduct on site demonstration at the following locations:

- **Fort Wayne, IN**
- **Fullerton, CA**
- **McKinney, TX**
- **Marlborough, MA**
- **Largo, FL**
