

# **Nett-Warrior FCC Experimental Authorization Request**

## **1 Purpose of Operation**

Raytheon Network Centric Systems (NCS) has been developing a Nett-Warrior communications system for the Warfighters squad activities. The purpose for this Experimental License is to evaluate the capability for Nett-Warrior Communications System. This system will be integrated into other Raytheon systems.

- File Number: 0360-EX-PL-2010
- Class of Station: FX MO
- Station Locations: MOBILE
- Effective:
- Expiration:

By its application, Raytheon Company sought authority to operate this Nett-Warrior Communications system for testing evaluations and demonstrations. This types of system will enable the Warfighter as he conduct his/her mission; Raytheon would like to: (i) conduct technical demonstrations and testing of communications service and to ensure that performance is in accordance with design specifications; (ii) demonstrate performance of the terminals to prospective purchasers; and (iii) perform limited market studies.
