NAME Raytheon Network Centric Systems

This Special Temporary Authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This Special Temporary Authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control the Government of the United States conferred by Section 706 of the Communications Act of 1934.

Special Temporary Authority is hereby granted to operate the apparatus described below:

**FEDERAL
COMMUNICATIONS
COMMISSION**

Special Conditions:

- (3) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (4) The designated point-of-contact to terminate transmissions if interference occurs is Mr. John Adams at (803) 318-0021.
- (5) Use of 1030 MHz is not allowed based upon the fact that the Federal Aviation Administration (FAA) cannot support the 1030 MHz interrogator for this system. The addition of Mode S and Mode 5 interrogation capability constitutes a major modification to the system the FAA has on file. Thus, the FAA will need to perform a detailed analysis of the modifications being made prior to any operation of this system. In addition, the addition of the Civil Mode S interrogates capability into a military tactical system raises enormous Policy challenges that must be resolved.
