Message:

Based on your description of the operation, station class is mobile (not fixed). Please elaborate on "over the air testing". What will be the antenna height above ground level during "over the air testing"?

In addition, please prior coordinate the use of the frequency band 5180-5250 MHz with the Eastern Service Area FAA Regional Office (Frequency Management Office). Please obtain NGT (Non-Government Temporary) number(s) from the FAA Regional Office at the completion of the coordination and report them in your response to this correspondence.
